Connecting the CONTOUR®NEXT LINK 2.4 Meter to the MiniMed™ 670G Insulin Pump

Charging Meter

Remove the USB cap to reveal the USB connector.

The CONTOUR NEXT LINK 2.4 meter has a permanent rechargeable battery. Charge your meter with the wall charger or by plugging the USB connector into a computer. Be sure the computer is turned on. Your meter will briefly display "Do Not Test-Charging" and the test strip port light will flash. You

cannot do a blood glucose test while the battery is charging. When charging is finished, the test strip port light will turn off. Unplug your CONTOUR NEXT LINK 2.4 meter

Unplug Meter From Charging Source Before Beginning Setup

- To begin setup, hold down the top Menu button for several
 - seconds until the meter turns on. Scroll down to select your language.

Press OK if the correct language is displayed. Press No if the incorrect language is displayed.

Connect to Pump

Press OK.

Connect to a MiniMed Pump? Press 0K.

- Press 0K. Put the meter down and pick up your pump.
- Press the **Select** button **()**. Use the **Down** arrow button to scroll to Options. Press **Select** button **()**.

If pump screen goes blank, press any button to turn it back on.

Utilities

OK

Go Back

Press the Down arrow button to scroll to Utilities.

Press Select button . In the Utilities menu, use the down arrow 💎 to scroll to Device Options.

Press the **Select** button **()**.

In the Device Options menu, scroll to Connect Device. Press the **Select** button **()**.

Place the meter and pump next to each other.

> Select Auto Connect on your pump.

Select Auto Connect on your meter.

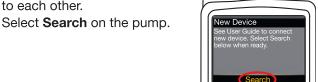

Read the pump screen, using the down arrow 😻 to scroll to the next page.

> Use the arrow buttons 💎 to scroll to Continue. Press the Select button 💿.

MiniMed™ 670G Pump

12 Place the meter and pump next to each other.

Select Search on the meter.

The search may take up to 2 minutes.

Check to see if Device SN (serial number) on the pump matches the Device SN on the meter.

> If they match, scroll to Confirm on the pump. Press the **Select** button **()**.

When the pump links to the meter, the SN on the meter screen will change to a different serial number. This number is the **pump** SN.

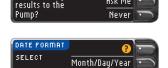

14 Turn the pump over. Make sure that the SN on the back of the **pump** matches the pump serial number now on the meter screen. Press Next.

Automatically send

Select **Always** and press OK on next screen.

Select the Date Format.

Ask Me

17 Press OK.

Note: If time and date are incorrect, you must change them on the pump.

Press Accept to select 18 AutoLog is Off.

guide to learn more.

AutoLog allows you to mark a test result as

Accept Turn On Fasting, Before Meal, or After Meal. See your user

AUTOLOG

AutoLog is Off.

19 Accept or Change High and Low Alerts.

Low Alerts.

The meter alerts you with a sound when your blood sugar level is above or below your set levels.

High: 13.9 mmol/L Change Change

20 Accept or Change your Target range.

The Target range is your goal for your blood sugar test results.

NOTE: Alerts can only be set outside your selected Target Range(s). Targets can only be set inside your selected Alert level(s). For additional information, you may contact Customer Service. See contact information for Customer Service below.

Your system setup is now complete and ready to run a blood sugar test.

See your CONTOUR NEXT LINK 2.4 user guide, lancing device insert and MiniMed insulin pump user guide for full instructions.
